

The Bank's Virtual Run for a Cause benefited International Care Ministries' community-based adult educational program in Iloilo.

with their schooling and supports them with gadgets and pocket wifi. Also, Kythe's Food for the Kids Project provides financial grants for families whose livelihood has been significantly affected by the crisis.

**• International Care Ministries'**

Building Resilience during COVID-19 Project in Iloilo, which focuses on programs titled "Transform" and "Family Academy." "Transform" is a four-month community-based adult education program centered on values, health, and livelihood. The "Family Academy", meanwhile, is a parent-child community coaching program.

ICM was a specific beneficiary of the Bank's recently concluded virtual fundraising event "The Race to 70K: Security Bank's Virtual Run for a cause to celebrate the Bank's 70th anniversary and fifth year of partnership with MUFG.

**• Operation Smile**, which supports children born with a cleft lip and palate. The Bank supported its awareness campaigns for expectant mothers and parents of children with clefts on the causes of this congenital defect, including prevention, and access to treatment. It also supported the "Nutrition Pilot Program" to help children attain the best possible health condition required for surgery and help mothers prevent cleft birth possibilities by providing healthy food, supplements, and early childhood nutrition education materials.

**• Philippine Red Cross' (PRC's)**

bio-molecular laboratory in Cebu City which was made possible with SBFI's PHP15 million donation. PRC's front liners assigned to the labs also received 1,300 reusable isolation gowns and over 2,200 N95 masks.

**• Medical facilities such as**

De La Salle University Medical Center's testing capacities, with funding for an additional RNA extraction machine. The Philippine Genome Center and other public hospitals also received 400,000 worth

SBFI funded the 207-square meter molecular laboratory of the Philippine Red Cross in Cebu. The laboratory is the largest COVID-19 testing center in Visayas.

Apart from funding a molecular laboratory in Central Visayas, Security Bank also donated PPE to the Philippine Red Cross.

The Bank provided an additional RNA extraction machine for DLSU Cavite to assist with COVID-19 detection.

In partnership with St. Luke's Medical Center, the Bank funded the convalescent plasma treatment of indigent COVID-19 patients to help them fight the infection.

of Gen-Amplify RNA extraction kits for COVID-19 detection tests.

**• Philippine General Hospital's** chemotherapy preparation room, with the purchase of a biohazard safety cabinet for cancer patients through the Helping Women And Others (HWAO) Foundation.

**• St. Luke's Medical Center's** Convalescent Plasma (CP) treatment for indigent COVID-19 patients, in which antibodies from the plasma of a COVID-19 survivor were given to assist in recovery. A special Doctors Loan was also extended to St. Luke's medical front liners to help support their financial needs.

*"As we celebrate our 70th anniversary, we'll navigate the new normal and delight customers with compelling value propositions, personalized customer journeys and automated processes that create value at every interaction,"* says Security Bank President and CEO Sanjiv Vohra. He adds, *"While continuing to deliver BetterBanking service, we'll integrate environmental and social considerations to drive sustainable practices and support the communities where we operate."*
