Digital Sales Lead and
Senior Account Manager

SHARLITTE IZA M. CORDERO
Marketing and Product
Development Supervisor

ABOUT THIS ISSUE

While the Philippines continues to battle the COVID-19 global health crisis that has interrupted the country's consistent economic growth streaks and upended lives, the pandemic has also emphasized the need to reset our priorities, rethink our values, recalibrate our strategies, rebuild better, explore possibilities, and collaboratively create a resilient path towards a more sustainable and inclusive Philippines in 2022 and the years ahead.

Last November 24 to 25, 2021, BusinessWorld, the Philippines' most trusted business newspaper and multimedia content provider, once again held its much anticipated Virtual Economic Forum bannered the theme "Recovery Roadmap PH: 2022 and Beyond" that converged the best minds in the government and business scene to discuss the most reliable economic forecasts, solutions to global challenges, emerging industry trends, expected digital disruptions and innovations, and effective strategies to bounce and build back better.

This *BusinessWorld In-Depth* special issue features the highlights and key takeaways from the event including keynote talks, CEO and panel discussions, breakout sessions, and fireside chats with leaders across industries who shared their insights, concerns, and plans to take part in tackling and solving the most important issues of our time that will further strengthen our economy and help the country achieve sustainability and inclusivity in a post-pandemic world.

May our stories arm you with the vital knowledge you need as you navigate your own roads to recovery and inspire you to continue moving forward despite setbacks because as experts agreed: recovery is underway and hope is here to stay.

Happy stronger and brighter 2022!

Josielyn Luna-Manuel
