

MESSAGE

Learning is key to survival and growth. And in these times of constant, profound and unremitting new demands in practically all facets of the financial and allied industries, continuing education becomes imperative as we struggle to keep pace. Championing learning is at the heart of BAIPHIL’s mission – strengthening our members’ competencies to navigate the shifting terrains of business, as much as boosting their capability to help bring about, on wings of technology, the transformation towards financial services of optimal range, convenience and inclusivity.

It is in the light of synergizing needs and solutions, new concepts and cutting-edge tools, explorations and actual experiences in an open exercise of inquiry and sharing, that we are hosting the 32nd National Convention on March 10-12 in Tagaytay City. We envision the conference to be a learning hub where leaders, regulators, peers, specialists, service users and providers can engage in productive and meaningful interfaces. We enjoin everyone to help us make this gathering a highly stimulating event where every participant becomes both a facilitator and beneficiary of a refreshing growth process.

We sincerely thank our training partners, particularly the Bangko Sentral ng Pilipinas, the Bankers Association of the Philippines, our own Institutional Members, all our Subject Matter Experts, Resource Groups, Consultants and our valued sponsors for tirelessly collaborating with us, as we continually build the mettle of our banking workforce.

MYRNA E. AMAHAN

President

Bankers Institute of the Philippines, Inc. (BAIPHIL)
