

WE TRANSFORM WATER INTO POWER.

For 45 years and counting, AboitizPower's Hedcor Group harnesses the power of rivers through 22 hydropower plants nationwide, producing clean electricity that empowers the lives of millions of Filipinos.

AboitizPower, alongside our partners, is one of the largest local renewable energy (RE) producers, and offers the most diverse RE technologies in the Philippines. With over 1,000 MW of disclosed projects across solar, hydro, geothermal, wind, and energy storage systems, we strive to provide a range of RE options for the country, contributing to a cleaner and more sustainable future.
