

Grand nuptials in the city

Dream weddings await to be fulfilled at Grand Hyatt Manila

Imagining the wedding of one's dreams often involves paying attention to the setting, from the vista to the flowers. After all, a picturesque surrounding would not only set the mood of the special day but also adds beauty to it for memory-keeping.

Nowadays, couples want a destination wedding by the beach or near to nature to have a good scene for the ceremony. But for couples who are enchanted by the bright lights of the city, the metro can also make a perfect setting for a modern fairytale-like wedding.

With the radiance from buildings as the backdrop, complemented by the decorations of one's desired motif, a couple's wish to have their city wedding can come true at the Grand Hyatt Manila. The hotel offers great spaces and end-to-end wedding event services to ensure the couple's big day in the city would match their dream wedding — and a grand one at that.

The events specialists of the Grand Hyatt Manila can make the wedding planning stress-free and carry out a grand nuptial according to the couple's desires. In "A Grand Rendezvous" last May 6, an exclusive bridal event hosted by the Grand Hyatt Manila, a glimpse of a grand wedding experience was shown at its spaces.

Surrounded by greens and an urban facade under the sun, Grand Hyatt Manila's Garden Pavillion can be a charming place to walk down the aisle and say "I do". If couples would want the ceremony to be intimate yet grand, the hotel can design the garden with adornments of their chosen wedding theme.

While the nuptials can be held outside on the lawn, the Garden Pavillion has an indoor space as well, where guests can gather and sip some cocktails.

The bride and groom as well as the guests can then have the reception at the Penthouse No. 66, which gives a space for a wedding celebration like no other. Grand Hyatt Manila had given a taste of its five-course dinner paired with an array of wines, as well as get serenaded at the place at "A Grand Rendezvous."

The Penthouse No. 66 is located on the hotel's top floor. This event space presents the best view of the metro that would perfect a city wedding, as the Grand Hyatt Manila is the loftiest skyscraper in the country.

With the sunset sky and the cityscape glowing up in the background, the event place can further be fancied up to the couple's liking, from the tables, the cake, and the dining experience.

If they prefer a classical look for their wedding reception, the hotel's florists can decorate the tables with white orchids and roses. Or if they find a neutral palette pleasing to the eye, the reception can be designed in a rustic motif, such as with pampas centerpieces adorning the tables. For couples who want a more romantic vibe for their wedding reception, they

can go for the pastel theme and fill the room with light-colored flowers.

And just like the reception, the feast that would be served would satisfy one's cravings. While couples can merely select from a set menu, they can instead go further with an exclusive culinary experience made by the hotel's events specialists. The chefs would then delight the couple and the guests with memorable cuisines on the big day.

Aside from the menu, the hotel's in-house pastry chefs can also prepare a signature wedding cake that would be specially curated to the newlyweds' taste.

As everyone indulges in the fine gastronomic experiences and be awestruck at the view of the city at Penthouse No. 66, the celebratory atmosphere can be further uplifted as the Grand Hyatt Manila can also provide a list of musical entertainment preferred by the couples.

But the wedding celebration does not end after the reception, for the newlyweds' grand exit would lead to their honeymoon. Grand Hyatt Manila can accommodate them in its elegant suites, where they can also have a striking sight of the city's vibrancy. Also part of their honeymoon

experience at the Grand Hyatt Manila are having special breakfast in bed and champagne as well as relaxation through Inner Calm Massage at the hotel's Illume Spa.

With its wedding services that attend to various needs in setting up the big day — from the ceremony, the reception, to the honeymoon — Grand Hyatt Manila creates couples' nuptial dreams real and grand at its event spaces with a dazzling display of the metro that would make a romantic setting for their happily ever after.
